

PROSTATE CANCER SUPPORT SCOTLAND LANARKSHIRE GROUP

What do we do?

Prostate Cancer Support Scotland is a registered charity working through local support groups offering help to men with prostate cancer and their carers. The aim is to enable patients and carers to meet together to support each other through friendship and the sharing of experiences.

What is happening in Lanarkshire?

A support group meets on the third Thursday of each month in Maggie's Centre beside Wishaw General Hospital between 1000 and 1200. This is an informal group of patients and their carers. If you would like to know more about the group phone Neil on 01698 - 428710.

Are there any other meetings which I can attend?

The Glasgow Area Group holds six meetings each year in the City Halls, Candleriggs, Glasgow. At these meetings, medical speakers, consultants and nurses, give technical talks about prostate cancer and its treatment. Sometimes selected members share their experiences. You are welcome to attend the Glasgow Area Group meetings.

How can I contact Prostate Cancer Support Scotland?
